BECA
PRODUCTOS PARA
ARTES GRAFICAS

Pre-Press Products

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
DEVELOPERS	RP 2000	Effective developer for conventional positive plates. Long run lengths.
	REVELADOR POSITIVO (1+9)	Concentrate developer for conventional positive plates. It can be diluted with water 1+9.
	REVELADOR AVENIR	Developer for thermal positive plates. It is valid for double layer plates.
REPLENISHERS	REGENERADOR AVENIR	Replenisher of Avenir developer.
	REGENERADOR RP 2000	Replenisher of RP 2000 developer.
GUMS	BECAGUM	Process gum. Avoid scratches during the handle of plates.
	ARABIC GUM	Gum for storage. Ready to use.
	STOCKGUM	Gum suitable for storage of plates. It can be diluted with water 1+1.
	GOMA QM	Synthetic gum for the protection of CTP plates during baking. It can be diluted with water 1+2.
CORRECTOR PENS	CORRECTOR AG PLUS	Correcting gel to apply with a brush. Suitable for positive plates: conventional or CTP.
	DUALPOINT	Correcting pen with thin and thick tip. Suitable for positive plates: conventional or CTP.
	DUALNEG	Correcting pen with thin and thick tip. Suitable for negative plates.
PROCESOR CLEANERS	PROCESS CLEAN	Cleaner for the white residues of the developer. It can be diluted with water 1+4.
	PRC ROLLERS	Cleaner for the emulsion residues in rollers and other areas of the processor.
ASTRALON CLEANER	ASTRASOL	Removes adhesives and finger marks. With antistatic agents. It repels dust.

Pressroom

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
HEATSET FOUNTAIN SOLUTION	AQUAHEAT 3001	Heatset Fountain Solution for printing without IPA. Minimize ink feed back.
	AQUAHEAT 3000	For printing without alcohol in Heatset web presses.
COLDSET FOUNTAIN SOLUTION	URAPRESS PLUS/T 	Suitable for all dampening systems: Turbo, Brush, Jimek....
	URAPRESS DUAL	Suitable for all dampening systems. Minimize paper residues on blankets.
SHEETFED FOUNTAIN SOLUTION	WATERFAST  ISEGA	Fountain Solution for printing with IPA (>5%). Valid for UV / LED inks.
	WATERFAST CAL	Special version of Waterfast to minimize calcium build-up on rollers.
	CONCENTRADO URABI PLUS ISEGA	Alcohol reducer 0-5%. It is valid for UV/LED inks.
	STOP CAL	Special version of Concentrado Urabi Plus to minimize calcium build-up on rollers.
	FOUNT 2012 / Hard  ISEGA	Printing without alcohol: 0%. Version for hard water. It is valid for UV/LED inks.
SILICONE EMULSION	BURDIN	High performance silicone emulsion. Available in different concentrations.
	SILPLUS	High gloss silicone emulsion. Available in different concentrations.
CONVENTIONAL INK CLEANERS	DUALMERKE	Cleaner for blankets and rollers. High solvency power. Medium evaporation rate.
	EUROCLEAN 60 N PLUS  ISEGA	Suitable for manual and automatic cleaning. Low evaporation rate. Approved by the main press manufactures. Approved for food packaging.
	EUROCLEAN 60 V 	Suitable for manual and automatic cleaning of rollers and blankets. Approved by Heidelberg.
	EUROCLEAN 100	High flash point cleaner for blankets and rollers. Non VOC product. Specially recommended for heatset presses.

Coatings

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
ACRILYC COATING	COATING WB HIGH GLOSS	High gloss water based coating for paper and paperboard.
	COATING WB GLOSS	Gloss water based coating for paper and paperboard.
	COATING WB GLOSS DS	Gloss water based coating for paper and paperboard. Fast drying.
	COATING WB MATT	Matt water based coating for paper and paperboard.
UV COATING	COATING UV HIGH GLOSS	UV gloss coating for paper and paperboard.
	COATING UV FLEXO GLOSS	UV gloss coating for paper, plastic and paperboard.
OVERPRINT COATING	COATING OP GLOSS	Gloss vegetable oil based coating for paper and papeboard.
	COATING OP MATT	Matt vegetable oil based coating for paper and papeboard.
CLEANERS FOR ACRILYC COATING	ANICLEAN PLUS	Deep cleaning of anilox rollers.
	ANICLEAN PASTA	Deep cleaning of anilox rollers. Paste form.
CLEANERS FOR OVERPRINT COATING	DUALMERKE	High solvency cleaner. Medium evaporation.
	EUROCLEAN 60 N PLUS  	Slow evaporation. Recommended for food packaging. FOGRA.
CLEANERS FOR UV COATING	UVICLEAN 60 PLUS 	Cleaner for UV/LED coatings. Approved by FOGRA.
	UVICLEAN 80  	Cleaner for UV/LED coating. FOGRA approved. Recommended for food packaging.
	UVICLEAN EXTRA 	Cleaner for UV/LED coating. Recommended for food packaging.

Clothes

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
WASHCLOTH	WASHCLOTH. BLUE, WHITE.	Jumbo rolls of 500 meters.
WASHCLOTH	DRY MINIROLLS	Minirolls ready to use.
WASHCLOTH	PRE IMPREGNATED MINI ROLLS	Impregnated rolls ready to use.

Blankets

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
CONVENTIONAL PRINTING INK	CLEVER. Paper, paperboard, metal.	Sheetfed blanket.
	IVO. Paper, paperboard, metal.	Sheetfed blanket.
	PLATINUM. Paper, paperboard, metal.	Sheetfed/hybrid blanket.
	3610. Paper, paperboard.	Sheetfed/heatset blanket.
	2300. Paperboard.	Sheetfed blanket.
UV/LED PRINTING INK	UV COMPRESIBLE. Paper, paperboard.	Sheetfed blanket.
	4200. Metal, plastic.	Sheetfed blanket.
NEWSPAPER PRINTING INK	8894. Paper.	Coldset blanket / Newspaper.
COATING	SUPERSTRIP. Acrylic coating/UV.	Autoadhesive blanket 1,05/ fabric 1,95.
	POLISPOT. Acrylic coating/UV.	Polymer 1,15/ 1,35

Machines

KIND OF PRODUCT	DESCRIPTION
FLEXO SOLVENT EQUIPMENTS	Modules and in line UV/LED.
WATER EQUIPMENTS	Compacts and modules.
LIQUID RESIN EQUIPMENTS	Modules.
PLOTTERS	Table for cutting coating blankets.
CUTTERS FOR MINIROLLS CLOTHES	For making dry minirolls o preimpregnated rolls from 500 meters jumbo.
CTP	Plate films equipments.
PLATES PROCESSOR	Proccesing and gumming of plates.
PLATES CLEANERS	Plates cleaner with hot water recirculation.
PLATES OVENS	Presensitized baking plates.
PLATES FOLDER MACHINE	

Plates

BECA REFERENCE	DESCRIPTION
BCB	Manual or processed. Universal positive developers. Conventional positive plates.
EXCEL	Long runs without baking. UV and standard inks. High sensitivity (140-150 ml). Double layer thermal positive plate.
AVENIR	Very fast process rate. Very sensitive (10 mJ). It is requires laser low power. Double layer thermal positive plate.
SONORA	Non ablative. Thermal Negative working. Without chemicals. Direct plates.
LIBRA	Photopolymer digital negative violet plate. Commercial printing.

Pressroom

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
UV INKS CLEANERS	ULTRABIO	Automatic and manual washing. Fast evaporation rate.
	UVICLEAN 60 PLUS 	Automatic and manual washing. FOGRA approved. Valid for unbaked double layer plates.
	UVICLEAN 80  ISEGA	Suitable for manual and automatic cleaning. Approved by Heidelberg and food packaging.
	UVICLEAN EXTRA 	Suitable for manual and automatic cleaning. Approved for food packaging.
MIXED CLEANERS	ALLCLEAN 3  ISEGA	Manual and automatic washing. Valid for conventional and UV/LED inks. Approved by FOGRA and food packaging.
PLATE CLEANERS	MERKEPLATE	High efficient and non abrasive plate cleaner. Do not attack even the most sensitive plates.
	MERKEPRESS	High efficient plate cleaner. Suitable for all kind of inks: UV/LED an conventional.
	SUPERCROFALIM B	Activator cleaner specially developed to eliminate scratches.
	SOLVOGUM PLUS	Special product for cleaning and protec the plates after the run in a single operation.
	PLANCHOL LIDER	Plate cleaner for automatic cleaning machines.
BLANKET AND BATTERIES REJUVENATORS	ESTROPADAK / UV 	Cleaner for the maintenance of the dampening rollers. Do not leave any residue. Special version for UV inks.
	RB ROLLER	Rejuvenator for the ink rollers.
	DECAL ROLLER / GEL	Calcium glaze remover.
	ROLLER WASH	Deep cleaning for quick colour exchange of rollers. Also available in paste form.
	BECA ROLLER PAST	Paste Cleaner for quick colour exchange.
	RC BLANKET	Blanket rejuvenator. De-glaze and restore the original fine texture of the blanket.
AUXILIARY PRODUCTS	IPABASIC / ECOPRINT 	Alcohol for offset with anti-rust additives.
	ANTIESPUMANTE	High effective defoamer.
	AKUATEMP	Additive for the cooling water. With anti-rust additives.
	AKUATENSOR	Additive for the water used in automatic cleaning systems. Improves cleaning, avoids bacteriological contamination and corrosion.
	INK REMOVER	Cleaner for all kind of inks in delicate substrates.
	REMINERALIZER	Re-hardening agent for reversed osmosis and soft water. Adjust the water to the optimal conditions.
	CIRCUIT CLEANER	Product for cleaning the dampening circuit of the press.
	NEUTRALIZER	Neutralize the alcaline residues after using the Circuit Cleaner.
	BIOPOL MSO 35	Biocide and disinfectant.
PRODUCT CONCENTRATES EXPORT		Concentrates for the production of developer for thermal and conventional positive plates. Check references.
		Concentrates for the production of Ink cleaners. Check references.
		Concentrates for the production of Fountain Solutions. Check references.
		Check possibilities of another type of concentrates.

Sundries

KIND OF PRODUCT	BECA REFERENCE
ANTI SETT-OF POWDERS	COATED. 15 / 25 / 50 microns.
ANTI SETT-OF POWDERS	COATED LOW DUST. BECA SUPERIOR. 15 / 25 / 50 microns.
SUNDRIES	Inkduct foils, LED dry lamps, dispensers, pH strips, conductimeters

Flexo

KIND OF PRODUCT	BECA REFERENCE	DESCRIPTION
PRE-PRESS CHEMICAL PRODUCTS		
SOLID PLATE	AGENTE GRABADOR	Universal wash-out solution for photopolymer printing plates.
	SOLFLEXO	Low odour wash-out solution for photopolymer printing plates.
	FLEXO WASHOUT	Non odour wash-out solution for photopolymer printing plates.
	SOLVENT LO	Non odour wash-out solution for photopolymer printing plates.
LIQUID RESIN	DETERGENTE FLEXO	Developer for liquid resin plates.
	ANTICAL PACK 2	Sequestering product to reduce water hardness in the developer solution.
	ANTIESPUMANTE 500	Specific product to avoid the foam in the processor.
PRESSROOM CHEMICAL PRODUCTS		
FLEXO CLEANERS	FLEXOTHIN	Cleaner for plates and anilox rollers. UV and solvent based inks. Fast evaporation.
	FLEXOTHIN 40	Cleaner for plates and anilox rollers. UV and solvent based inks. Medium evaporation.
	FLEXOTHIN 80	Cleaner for plates and anilox rollers. UV and solvent based inks. Slow evaporation.
	BECA INK D	Plate cleaner for water based inks.
	BECA INK C	Concentrate cleaner for adhesives and water based inks.
	ANICLEAN PLUS	Anilox rollers cleaner for water based inks.
	ANICLEAN PASTA	Water based inks paste cleaner for anilox rollers.
	EXTREME	Plates and anilox rollers cleaner for all type of inks.
PHOTOPOLYMER PLATES AND RESIN		
SOLVENT SOLID PLATE	Diferent thickness and qualities for conventional to high quality digital plates. For printing flexible packaging, paper and corrugated board.	
WATER SOLID PLATE	Hard plates for very high quality plates. For printing flexible packaging, labels and paper.	
LIQUID RESIN	For manufacturing very soft plates. For printing corrugated board.
